March 3, 2021

Since many people have been or soon will be vaccinated against COVID-19, we would like to share some guidance with you. The US Centers for Disease Control and Prevention (CDC) has promulgated guidance statements regarding the exposure to COVID-19 of people presumed to be immune to COVID-19.

### **People Fully Vaccinated**

People who have been exposed at least two weeks but no more than 90 days after being fully vaccinated for COVID-19 do not need to quarantine, if they are having no symptoms. [[CDC Statement](#)]

.

### **People Who Have Recovered From COVID-19**

Likewise, people who have recovered from COVID-19 or were without symptoms but tested positive by a PCR or antigen test and have another exposure within 90 days of the recovery or the test do not need to quarantine, as long as they have no symptoms. [[CDC Statement](#)]
